

Goldrush® Delisdor® COOP38

The Tree

- VIGOR: Weak as soon as the trees start to produce
- PRODUCTIVITY: Good
- BLOOMING TIME: 2 days before Golden Delicious
- HARVEST DATE: 5 weeks after Golden Delicious
- BIENNIAL BEARING: After too heavy crops
- TOLERANCE TO PESTS & DISEASES: Resistant to scab, susceptible to mildew, tolerant to rosy apple aphid

The Fruit

Presentation: "Rustic appearance, yellow with strong lenticels and typical russetting"

Eating Quality: "Exceptional eating qualities from February. Both very sweet and very sharp with powerful flavors."

Storage Potential: "Cold storage: April, CA storage: July"

Highlight

"Very good variety for farm shops, late sales and quality orientated markets. It is suitable for organic orchards"
